

# Solar Education Station Ribbon Cutting

**Thursday, May 5<sup>th</sup> • Wallace Park • 9 a.m.**

**The Solar Education Station is a 2.88 kW solar panel array located at Wallace Park. The solar panels annually produce enough energy to offset the park's pavilion lighting and restroom facilities. The project was made possible through a grant from the U.S. Department of Energy, SWEPCO, and the City of Texarkana, Texas. The project was installed by Alternative Power Solutions from Houston, Texas.**

**The project will also include curriculum for schools that meet national science standards and an informational display.**
